## APPENDIX

## Changes to Claims:

The following are marked-up versions of the amended claims:

12. (Amended) The ~~light source~~ projector according to claim 8, wherein the pair of opening is a recess formed on the distal part of the reflector in the light-emitting direction.
13. (Amended) The ~~light source~~ projector according to claim 8, wherein the pair of opening is horizontally disposed when the case is detached from the projector.
14. (Amended) The ~~light source~~ projector according to claim 8, wherein the cooling channel shutter includes a lid member rotatably supported to the case for shutting the opening formed on the case and a biasing member for biasing the lid member in rotary direction.
15. (Amended) The ~~light source~~ projector according to claim 8, wherein the cooling channel shutter includes a lid member slidably supported by the case for shutting an opening formed on the case and a biasing member for biasing the lid member in slide direction thereof.
16. (Amended) The ~~light source~~ projector according to claim 8, wherein the case is provided with a duct for guiding an air from an outside of the case to the cooling channel and/or from the cooling channel to the outside of the case.
17. (Amended) The ~~light source~~ projector according to claim 8, wherein a dust filter is provided on the pair of openings.
